

Our engaging art instructors bring in everything you need, set it up, and guide the children through an amazing art project, from concept to clean-up! Every child takes home their own personalized art project. No two projects are alike! We think that every child should be free to express their uniqueness and creativity!

**Check out our Party Themes! There's Something for Everyone**

**Emoji-Grams Personalized Collages** - Kids paint an emoji or letter and personalize it to tell their story, by adding a few of their favorite things – from buttons and bling, ribbons and bows, to washers and bolts! The finished pieces look great hanging on a door or wall, or sitting on a shelf or mantle. They are a welcome addition to any bedroom!

**Own Couture T-shirt Design** - Kids design their own clothing in this creative party! They draw their own masterpiece onto t-shirts using our templates or their own imaginations. At the end of the party, they can wear the first piece in their own fashion line home!

**Magical Creatures Dragons and Unicorns** - Kids choose between two magical creatures. They design and paint a unique wooden background, creating their own fantasy world, and then add a sculpted dragon or unicorn head to give it a three-dimensional pop! This project really lets their imaginations soar!

**All parties include a colorful, interactive poster for the birthday child that all guests decorate with fingerprint art. Bonus: It doubles as a guest book! Every child takes home a Color-Your-Own eco-friendly bag and Crayola® Model Magic!**

Imagine Arts Academy birthday parties are perfect for kids turning aged 5 to 12.

**Our Crayola Imagine Arts Academy Parties include:**
